Summary

I have completed my graduation in B. Tech - IT with a strong foundation in Python, data analysis and problem solving. Hands-on experience on cleaning and processing data with pandas and NumPy, building analytical dashboards, and developing applications that work with live data. Committed to continuous learning and keen to apply data-driven techniques to build intelligent, real-world solutions.

Technical Skills

- Programming Languages: Python, C++
- Data Science & Analytics: pandas, NumPy, data cleaning and preprocessing, EDA, Power BI, Data visualization
- Web & Application Development: HTML, CSS, responsive UI
- Tools & Platforms: Git, GitHub, VS Code, Android Studio, Microsoft Teams, Google Docs

Experience

Data Science Intern — Data Play Pvt Ltd, Jaipur *July 2024 – August 2024*

- Built 5+ interactive dashboards to analyze multiple dataset catalogs and surface insights on content trends, distribution and country-wise availability.

Python Intern — Matrix Computers, Jaipur *July 2023 – October 2023*

- Built a Restaurant Management System, File Management System, Book Management System and Calculator.

MERN Stack Intern — Udemy *July 2025*

- Built Crypto Pulse, a real-time cryptocurrency tracking web app that consumes live market data to show prices of major coins such as Bitcoin and Ethereum, with dynamic price charts, watchlists and historical data analysis in a responsive React UI.

C Programming Intern — Samyak Institute Pvt Ltd, Jaipur *July 2022 – August 2022*

- Developed an ATM Management System simulating core banking operations for users.

Projects

- Big Mart Sales Analysis: The objective is to understand retail product and identify patterns that can help businesses make better sales-related decisions. I used Python for data analysis, Pandas and NumPy for data manipulation, and Matplotlib and Seaborn for data visualization.
- Interactive Data Dashboards (Power BI, pandas, NumPy): Multi-dataset dashboards analyzing content trends and regional availability, with a full cleaning and preprocessing pipeline.
- Crypto Pulse – Real-Time Crypto Tracker: Live price monitoring, dynamic charts, watchlists and historical trend analysis.
- E-commerce Website: Online shopping platform for clothing and fashion products.
- Python Management Systems: Restaurant, File and Book Management Systems; Calculator

Education

- Poornima College of Engineering, Jaipur *August, 2022 – June, 2026*
  B. Tech – IT Jaipur, India
- Kapil Gyan Peeth School, Jaipur *April,2021 – March, 2022*
  Senior Secondary Jaipur, India
- Kapil Gyan Peeth School, Jaipur *April,2019 – March, 2020*
  Secondary Jaipur, India
